Managing Remote Employees

Tips and Tricks to Focus on Performance and Sustain Company Culture

More and more employees are working remotely. As a manager, how do you alter your management style to effectively motivate, communicate and sustain company culture? This training will:

- **Identify the differences of managing remotely versus on-site**
- **Teach you how to recruit successful candidates that can adapt to working remotely**
- **Discuss how to sustain the company culture using remote communications and onboarding**
- **Model how to develop your team although they are not physically close**
- **Share resources, minimum expectation documents, and conversation starters to get to know your remote employees**
